# ABOUT REVOLVER

---

A bold open-fire grill restaurant, Revolver brings together modern Indian cooking sensibilities with international flavors and world-class produce. The team offers ever-changing tasting menus that showcase dishes cooked over custom-built wood-fired and binchotan grills, as well as in a gleaming hand-beaten tandoor.

The cuisine represents a multi-textural and multi-dimensional harmony of global ingredients, coaxed over the fire to bring out their best flavors. Finished with intentional char and smokiness, the dishes are then paired with unapologetically South Asian spices.

## MAIN DINING ROOM

# REVOLVER

The main dining room at Revolver centres around its open wood-fired kitchen – where flames, smoke and spice shape the menu. Guests dine within sight of the grill, watching each dish come together in real time as it moves from fire to table.

Warm, intimate and alive with the rhythm of the kitchen, the space captures the essence of Revolver's fire-led cooking. It is here that the energy of the restaurant unfolds – where the craft of the grill, the aroma of wood fire and the pulse of service create an experience that is both immersive and unmistakably Revolver.
